Report Developed by:

DECISION:

☒ 1. Further Remedial Site Assessment under CERCLA (Superfund) is not required because:

☒ 1a. Site does not qualify for further remedial site assessment under CERCLA (No Further Remedial Action Planned - NFRAP)

☐ 1b. Site may qualify for action, but is deferred to:

Further Assessment Needed Under CERCLA:

2a. Priority: ☐ Higher ☐ Lower

2b. Other: (recommended action) Referred to Removal, no further Remedial

DISCUSSION/RATIONALE:

This Site has been remediated and does not reflect a hazardous substance migration. Based on the DCEHA and the DCCA's appropriate steps including of stained soil and debris, the DCCA's commitment (to the proper worker protection, the dust control measures, and the disposal efforts), the DCEHA's regulatory control over the planned construction and remediation of the site, the Site Assessment Program designates this Site's status as NFRAP.
